Industrial Solutions Division

MIDDLE EAST FUJI LLC

الشرق الأوسط فوجي

Middle East Fuji LLC – About Us

Established in 1993 as Middle East Ship stores, offering chandlery services to ships calling at UAE ports

Since the year 2000, MEF became part of Fuji Trading Group Japan through our formal joint venture agreement

MEF is accredited and certified to ISO-9001, ISO-14001, ISO-45001, ISO-22000 and HACCP

Marine Supply & Services

Full line chandlery supplies including technical stores consumables, provisions, bonded goods and crew shopping.

Industrial Solutions

Offers high-end quality tools, equipment and consumables for Oil & Gas, Marine, Petrochemical, Construction and Manufacturing Industries in the Middle East.

International Trading

Offers the freshest and unique quality of produce for hotels, restaurants and catering establishments.

Marine Engineering & Plant Machinery

Provides 24X7 mechanical, automation and electrical engineering services and spare parts to both ashore as well as on-board ships.

Property Maintenance & Technical Services

Provides integrated facilities management services to commercial and residential properties

Middle East Fuji LLC – About Us

Head office & main warehouse (over 45,000 Sq Feet) located in Al-Quoz Industrial Area Dubai.

Over 200 skilled & experienced staffs.

Own fleet of transporting trucks.

Branch offices at Abu Dhabi, Fujairah, Jeddah, Doha, Muscat and Salalah.

Availability of Training room & repair facility.

Industrial Solutions Division

The Industrial Solutions Division at MEF caters to the Ship building and marine, Oil and Gas, Metal Fabrication, Construction, Manufacturing and Engineering Industries across Middle East. Over the years we have established as a single source of equipment, machinery, tools, and consumables in the UAE representing various reputed manufacturers

A well trained, qualified and fully experienced Sales team

We provide professional customer support including on-site demonstrations, training and OEM trained service engineers

Stock of wide range of Industrial Equipment and Spare Parts.

Portable Double-Acting Hydraulic Puncher

SELFER ACE

- Max. punching thickness: 16 mm
- Max. punching diameter: 24 mm
- Max. throat depth: 110 mm

Double acting hydraulic system allows automatic and inching (manual mode) operation.

Portable Chamfering Tools

HAND BEVELER

- Mild steel: 15C

Fully automatic drilling for increased productivity and reduced cost

- Proven Automatic Technology
(self feeding, automatic return, load detection for speed and feed regulation)

Portable Magnetic Base Drilling Machine

ATRA ACE quick auto

- Max. 65 mm dia. x 50 mm deep

Couplings

- Pneumatic
- Water, Liquid
- High Pressure Hydraulics
- Multi-Port Connection System
- High Purity Fluid
- HVAC & Automotive Testing
- Semi-Standard Series
- Accessories

Electric Screwdrivers

Brushless Motor - DC Power Supply

Brushless Motor - AC Power Supply

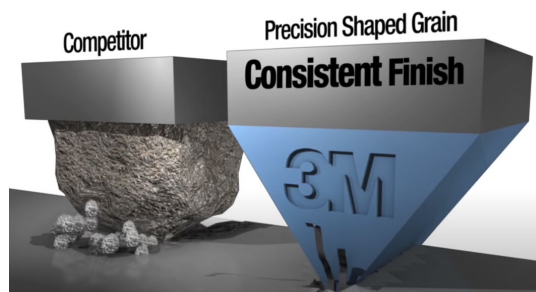

Features

- Easy fastening setting by controller
- Current Controlled Torque System suitable for screw fastening work
- Low-voltage brushless motor
- ESD (electrostatic discharge) protection structure
- For both hand-held / automatic machines
- Controller has built in counting function. Prevents human errors

Pliers & Hand Tools

A collection of various hand tools arranged on a white background. The tools include:

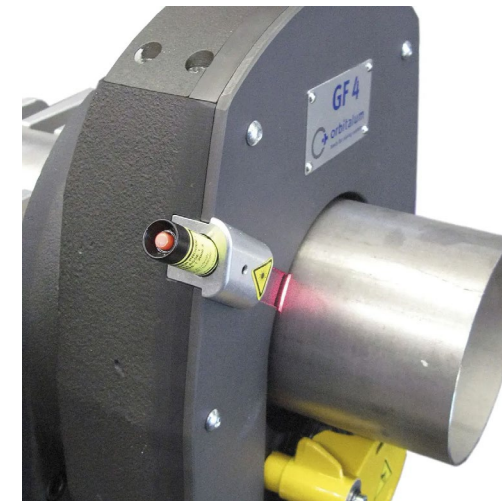

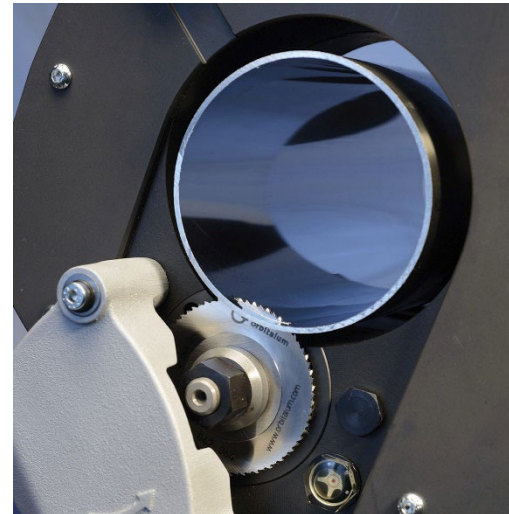

- Pliers:** Four pairs of pliers with red and blue handles, including a side cutters, a long nose pliers, a combination pliers, and a side cutters with a wire cutter.
- Wrenches:** A combination wrench with a green handle and a silver head, and a silver open-end wrench.
- Screwdrivers:** A large screwdriver with a green and black handle, a smaller screwdriver with a red handle, and a screwdriver with a yellow and red handle.
- Socket Wrenches:** A set of sockets with a black handle, a silver socket, and a silver socket with a red handle.
- Hammers:** A claw hammer with a wooden handle and a silver head, and a mallet with a black head and a wooden handle.
- Other Tools:** A set of hex keys in a blue holder, a chisel, and a small tool with a black handle.

Orbital Cutting & Welding

PIPE CUTTING MACHINES

- Square, burr-free and cold machining process
- Optimum preparation for the automated welding process
- Integrated line laser to determine the cut off point
- Available with automatic or manual feed modules AVM/MVM
- Pipe OD 0.472 in. to 12.795 in.
- Wall thickness 1.5 mm to 15 mm.
- High-quality steel, stainless steel, case hardened steels, general structural steel; annealed cast iron pipe (GGG); aluminium; brass; copper; plastics (PE, PP, PVDE, PVC)

Orbital Cutting & Welding

PIPE BEVELLING MACHINE

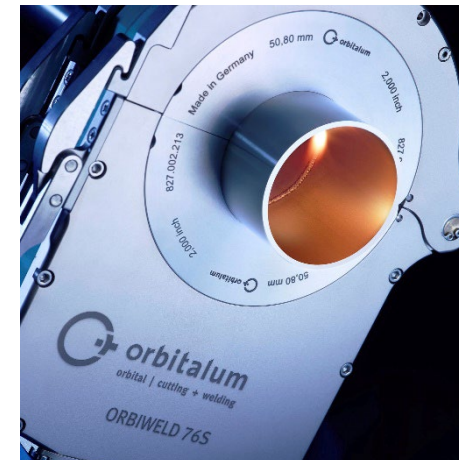

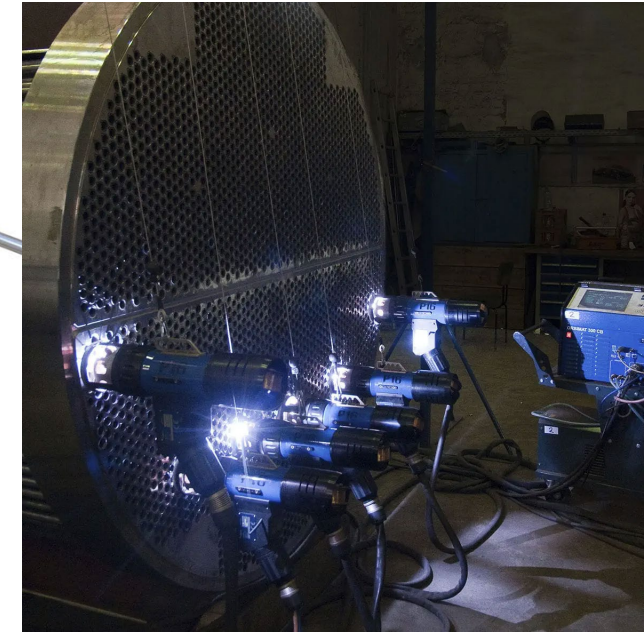

- Prepare I/V/Y and U seam weld joint geometries in pipe ends made from high-alloy steel, low-alloy and carbon steel with the unique QTC® tool system.
- Precise and reproducible weld seam preparation
- High-performance coated tool bits with up to 4 cutting edges
- Available with automatic or manual feed modules AVM/MVM
- Pipe OD 0.659 in. to 14.00 in.
- Wall thickness 1.5 mm to 30 mm.
- Electric / Pneumatic Power Drive

Orbital Cutting & Welding

ORBITAL TIG WELDING

- Automatic programming by entering the tube diameter, wall thickness, material and welding gas
- Integrated liquid cooling system for constant low weld head temperatures
- Enclosed orbital weld heads for Tube OD 3 mm to 170 mm
- Open Weld heads for Tube OD 8 mm to 275 mm
- Drastically shortened welding times
- With oscillation (OSC) and arc voltage control (AVC)
- Tube-to-tube-sheet orbital weld head

Process / Material Transfer Equipment

Air Operated Double Diaphragm Pumps

- Diaphragms last 5X longer
- Expanded material offering to handle endless applications
- Offered in ATEX configuration
- Food Grade Pumps FDA-compliant and 3-A approved
- USP Class IV Approved Pharmaceutical Pumps
- One-piece centre section eliminates leaks and reduces maintenance

Drum /Bin /Pail Unloaders

Clean-in-Place Pumps

Air Operated Pressure Washer

Air-operated Piston transfer Pumps

Air-Operated Double Diaphragm Pumps

Husky 205

- 1/4 in (6.3 mm) connection
- Max flow: 5 gpm (19 lpm)
- Polypropylene, acetal, PVDF

Husky 307

- 3/8 in (9.4 mm) connection
- Max flow: 7 gpm (26 lpm)
- Polypropylene, acetal

Husky 515

- 1/2 in (12.7 mm) connection
- Max flow: 15 gpm (57 lpm)
- Polypropylene, acetal, PVDF

Husky 716

- 3/4 in (19.1 mm) connection
- Max flow: 16 gpm (61 lpm)
- Aluminum, SST

Husky 1050

- 1 in (25.4 mm) connection
- Max flow: 50 gpm (189 lpm)
- Aluminum, polypropylene, conductive polypropylene, PVDF, SST, hastelloy

Husky 1050HP

- 1 in (25.4 mm) connection
- Max flow: 50 gpm (189 lpm)
- Aluminum and SST

Husky 1590

- 1-1/2 in (38.1 mm) connection
- Max flow: 90 gpm (340 lpm)
- Polypropylene, aluminum, SST

Husky 15120

- 1-1/2 in (38.1 mm) connection
- Max flow: 120 gpm (454 lpm)
- Polypropylene, PVDF

Husky 2150

- 2 in (50.8 mm) connection
- Max flow: 150 gpm (568 lpm)
- Polypropylene, aluminum, SST, iron

Husky 2200

- 2 in (50.8 mm) connection
- Max flow: 200 gpm (757 lpm)
- Polypropylene, PVDF

Husky 3300

- 3 in (76.2 mm) connection
- Max flow: 300 gpm (1135 lpm)
- Polypropylene, aluminum, SST

Husky Dispense System

- For 55 gallon (200 l) drums
- Full-width mixing provides color and material consistency throughout the drum

Adhesive & Sealants, Technical Sprays & Pastes

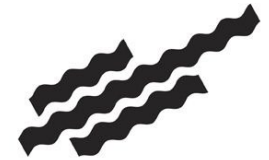

- Surface & Anti-corrosion coating
- Cleaners & Degreasers
- Lubricants and High – performance grease
- Adhesive sprays
- Anti-Seize / High Performance
- Assembly Pastes
- All-around Lubricant
- Stripping Tools

Dunnage Bags

- Airbags that can withstand loads up to 30 tons
- Available for one-time use and repeat use
- Many different sizes from 60 x 110 cm to 120 x 240 cm Customized solutions are available upon request.
- Can withstand up to 90% relative humidity (RH) at 60°C
- Have a very high wet strength
- Entirely made from environmentally friendly materials. - paper, film and valve components are 100% recyclable.
- Have a high friction value and therefore they stay in place during transit
- The fastest filling- and emptying times in the market.

Visual Inspection Systems

VUMAN - Videoscopes

- Interchangeable video probes up to 30 m probe
- Probes in different diameters (6 mm / 8 mm / 12 mm)
- X-WAY, pneumatic 4-way camera articulation
- Remote focus for detailed image display from 3 mm to ∞
- Detail resolution 0.035 mm at 4 mm distance
- Crystal clear colour display
- Integrated control and documentation system
- Lifetime warranty on carbon housing and LED

Visual Inspection Systems

PIPE CAMERA REVOLVER 80

- The leading inspection system for visual inspection of orbital welds in large diameter pipelines.
- Remote visual inspection of pipelines from 80 mm inner pipe diameter
- Optional work lengths up to 150 m
- Exact recording of details with up to 10x zoom
- High performance LEDs for optimum illumination of the pipe
- Position memory and auto return
- Precise control via joystick
- Dual camera head with continuous 360° rotation

“MEF's Vision is to 'Be the best service provider in the region', as measured by Customer Satisfaction, Quality of Service, Financial Profitability, Growth and high standards of Health and Safety.”
