Food Safety Policy

Middle East Fuji Group (Middle East Fuji LLC, Middle East Fuji International Trading LLC, Middle East Fuji Khimji's Co LLC) deals with storage, distribution and trading of chilled, frozen and ambient stable food products to our customers at ships, land-based hotels, and other companies and organizations in the region.

- In our endeavor to ensure food safety, we have implemented a Food Safety Management System (ISO 22000) and Hazard Analysis Critical Control Point (HACCP) System. We are also committed to ensuring compliance with the applicable local statutory and regulatory requirements.
- We strive to achieve and/or exceed our customers' expectations, every time, by actively involving our staff and engaging with our relevant interested parties. We set objectives, evaluate our risks at regular intervals and practice stringent monitoring at every stage of our service delivery.
- We are also committed to improvements, and ensure that our documented information, including manuals, policies, procedures, guidelines etc., are reviewed and kept up to date, communicated and implemented at all levels within the organization.
- The Management of the Middle East Fuji Group shall ensure that this policy is being communicated and implemented at all levels of the organization and available for relevant interested parties.
