Quality • Reliability • Integrity

Food Safety Policy

Middle East Fuji Group (Middle East Fuji LLC, Middle East Fuji International Trading and Middle East Fuji Khimji's Co. LLC) is committed to providing safe frozen, chilled and ambient food products, to our customers at ships, land based hotels, and other companies & organizations.

In our endeavour to achieve this, we have implemented a Food Safety Management System (ISO 22000) and Hazard Analysis Critical Control Point (HACCP) System. We are also committed to comply with the applicable local statutory and regulatory requirements.

We strive to achieve and/or exceed our customers' expectations, every time, by actively involving our staff and engaging our relevant interested parties. We set objectives, evaluate our risks at regular intervals and practice stringent monitoring at every stage of our services.

We are also committed to improvements and thus ensure that our manuals, policies, procedures and guidelines are reviewed and kept up to date, communicated and implemented at all levels within the organization.

We, at Middle East Fuji LLC are committed to maintain. This is applicable for food manufacturing units. Consider '...committed to maintaining food safety and hygiene requirements as per ISO 22000:2018 and HACCP standards'

We are also committed for reviewing and updating of all processes to take care of technological improvements and changing needs of business, through continual improvement at all fronts.

The management shall ensure that this policy is being communicated and implemented with all levels of the organization.

President
